WORKSTATION VALIDATION

ACE-NH-001 | NEW HIRE ASSIGNMENT 001

Your first job is simple: know the system in front of you and document what you find.

MISSION: Inspect your assigned workstation, determine its current configuration and network status, and document your findings clearly enough for another technician to understand.

Name: *Caleb Brandt*

ACE ID: *AXEDYN*

Workstation / Station #: AL-E325-S-02

Date: *8/24/26*

STEP 1 | CREATE YOUR ACE ID

Create a simple operational identifier beginning with **ACE-**. Choose something you can remember, but do not use your name, initials, birth date, CCAC student ID, or other personally identifying information. Use the same ACE ID on future ACE work when instructed.

STEP 2 | VALIDATE YOUR WORKSTATION

You are not expected to already know where every answer is located. Investigate, verify, and document.

Computer Name

AL-E325-S-02

Operating System

Windows 11 Education

CPU / Processor

Intel Core i7-11700

Installed RAM

32gb DDR4

Storage Capacity

1tb SSD

IP Address

162.51.15.30

Network Connectivity

Operational

STEP 3 | DOCUMENT YOUR PROCESS

How did you obtain this information? Briefly identify the tools, settings, commands, searches, or other methods you used.

Settings dialogs, ipconfig in terminal for IP information

Anything unusual? Identify anything incorrect, unexpected, or worth another technician knowing. If nothing appears unusual, say so.

Two ethernet adapters, but I remembered we have two network cards in the desktop.

STEP 4 | TECHNICIAN NOTES

Using complete sentences, document the overall condition of the workstation. Write this so another technician could understand what you checked, what you found, and whether follow-up appears necessary.

Hasn’t had an OS reinstall in about a year, might need a refresh by end of school year.

SUBMIT | BLACKBOARD

Submit your completed Workstation Validation through Blackboard as directed. Before submitting, verify that your ACE ID is included and that your documentation is clear enough for another technician to understand.

COMMAND DIRECTIVE 02 | DOCUMENT EVERYTHING.
